Our Expert Team

[MEET THE MASTER MINDS BEHIND THE SUCCESS!]

SIVA SHANKAR

Managing Director

An experienced Director of Operations, Sales, and Finance with expertise in Business Process Management, Supply Chain Management, and SDLC.

Strategic initiatives have been implemented to optimize processes, enhance efficiency, and drive business growth. Proven success in leading teams to achieve efficiency gains, increased client satisfaction, and sales growth. IT Consulting, Application Development, Cloud & Mobile Solutions, and Web Development services are provided to support digital transformation.

NAMBIKKAI NAGARAJ

Director - Strategic & Planning

A seasoned leader in the spice and agro-products sector, instrumental in growing Eswar Traders into a trusted global brand since 1999. Committed to quality, sustainability, and innovation, with 60% organic sourcing and eco-friendly packaging.

Now serving as Strategy and Planning Director at UNIZH, driving global growth and ethical business practices in the agro-industry. Expertise in supply chain optimization, market expansion, and developing long-term partnerships. Passionate about leveraging technology and data analytics to enhance productivity and sustainability in agriculture.

SURESH KUMAR

Director - Sales

A distinguished leader in education, sales, and social services, with expertise in academic administration, business development, and community empowerment. Contributions to education and social initiatives since 1998 have driven scholarships, free education, and social welfare programs, positively impacting society.

Global exposure across 20+ countries has strengthened strategic collaborations.

Currently serving as Director – Sales at Unizh, focusing on business expansion, global partnerships, and market-driven strategies to drive growth and enterprise success.

P.R. ANANTHAN

Director - Operations

With extensive experience in brick manufacturing, construction, and real estate development, I have driven business growth and industry collaborations since 2013.

Now, as Director at Unizh, I leverage expertise in strategy and global expansion to establish an international presence in residential, commercial, and industrial infrastructure, fostering innovation and sustainable development. Proven success in optimizing supply chains and forging strategic partnerships. Committed to delivering high-quality, cost-effective solutions that align with market demands and sustainability goals.

T V NATHAN

Senior Vice President

An expert in global IT application development, specializing in EDI ERP integration and deployment. Proven ability in managing complex systems and delivering scalable, end-to-end software solutions that drive operational excellence. Expertise includes project leadership, risk management, and quality assurance, with a strong foundation in ITIL and ITSM frameworks to optimize processes and enhance service delivery. A strategic focus on aligning IT services with business objectives ensures improved efficiency and customer satisfaction.

Currently serving as Vice President at Unizh, leading initiatives to empower entrepreneurs and professionals globally through innovative IT solutions and strategic growth.

ANITHA SIVA SUBRAMANIAN

Vice President - Strategy & Planning

With extensive experience in AI and Data Science, I specialize in machine learning, predictive analytics, and AI-driven solutions. Since 2013, my focus has expanded to Generative AI, deep learning, and NLP, contributing to impactful industry innovations.

Currently serving as Vice President at Unizh, I drive AI innovation and data-driven strategy, leading transformative digital initiatives and establishing a strong global presence. Actively engaged in research and development, fostering AI adoption across industries through strategic collaborations and thought leadership.

ASWINI PRIYANKA RAJENDRAN

Vice President - Operations

With 11+ years in cybersecurity and ethical hacking, I specialize in data protection, risk assessment, and innovation. A Gold Medalist in M.Eng Computer Science and MBA graduate from Liverpool John Moore's University, UK, I have led cybersecurity initiatives and contributed to industry advancements.

Now Vice President at Unizh, driving cybersecurity strategies and technological innovation. A recognized global speaker and published author, sharing insights on AI, cybersecurity, and digital transformation. Actively involved in developing security frameworks and risk mitigation strategies for enterprises worldwide

R.SARABOJI

Vice President - Information Technology

Extensive experience in supporting global customers across the US, Europe, and EMEA, with expertise in business processes, IT integration, and change management. A strong technical and functional background has been developed, complemented by proficiency in team leadership, system implementation, and process optimization.

Long-standing experience includes managing teams and leading change management, new implementations, integrations, and upgrade projects. Currently serving as Vice President at Unizh, where enterprise resource planning and IT integration are overseen to drive global business growth.

G. BALAJI

Vice President - Information Technology

A seasoned expert in Oracle PL/SQL development and data analytics with extensive experience in database management and enterprise applications. Expertise was expanded in 2013 to include Oracle E-Business Suite and Power BI analytics, contributing to business growth and strategic innovation.

Currently serving as Vice President at Unizh, with a focus on data-driven solutions and business intelligence to scale operations and drive enterprise success. Proven leadership in managing successful projects, optimizing processes, and leveraging analytics for informed decision-making.
